COMPUTATION OF SEMESTER GRADE POINT AVERAGE AND CUMULATIVE GRADEPOINT AVERAGE

1. Calculation of Semester Grade Point Average (SGPA)

The Grade Points (GP) in a course shall be assigned on the basis of marks scored in that course as per the Table I. Any fraction of mark in the borderline less than 0.50 be ignored in assigning GP and the fractions of 0.50 or more be rounded off to the next integers. The Credit Points (CP) shall then be calculated as the product of the grade points earned and the credits for the course. The total CP for a semester is the sum of CP of all the courses of the semester. The SGPA for a semester is computed by dividing the total CP of all the courses by the total credits of the semester. It is illustrated below with typical examples.

2. Calculation of Cumulative Grade Point Average (CGPA)

The aggregate or cumulative SGPA (CGPA) at the end of the second, fourth and sixth semesters shall be calculated as the weighted average of the semester grade point averages. The CGPA is calculated taking into account all the courses undergone over all the semesters of a programme, i.e. The

CGPA is obtained by dividing the total of semester credit weightages by the maximum credits for the programme.

$$CGPA = \sum (C_i \times G_i) / \sum C_i$$

Where G_i is the grade point of the 'i'th course / paper and C_i is the total number of credits for that course/ paper

$$CGPA = \sum (C_i \times S_i) / \sum C_i$$

Where S_i is the SGPA of the 'i'th semester and C_i is the total number of credits in that semester.

Table 1: Conversion of Percentage of Marks into Grade Points in a Course/Paper

% Marks in a paper/practical	Grade Point (GP)	% Marks in a paper/practical	Grade Point (GP)
98-100	10	63-67	6.5
93-97	9.5	58-62	6.0
88-92	9.0	53-57	5.5
83-87	8.5	48-52	5.0
78-82	8.0	43-47	4.5
73-77	7.5	40-42	4.0
68-72	7.0	Below 40	0

D. TERMS AND CONDITIONS:

Semester GPA/Program CGPA	Alpha-Sign/ Letter Grade	Semester/Program % of Marks	Result/Class Description

4. Final Result/Grades Description

The **Semester Grade Point Average (SGPA)** in a semester and the **Cumulative Grade Point Average (CGPA)** at the end of each year may be calculated as described in **Para 17**.

5. Computation of Semester Grade Point Average and Cumulative Grade Point Average

1. Calculation of Semester Grade Point Average (SGPA)

The **Grade Points (GP)** in a course shall be assigned based on marks scored in that course as per **Table I**. Any fraction of marks in the borderline less than **0.50** will be ignored in assigning the GP, and fractions of **0.50** or more will be rounded off to the next integer.

The **Credit Points (CP)** shall then be calculated as the product of the grade points earned and the credits for the course. The total CP for a semester is the sum of the CP of all the courses of the semester.

The **SGPA** for a semester is computed by dividing the total CP of all the courses by the total credits of the semester. This is illustrated below with typical examples.

2. Calculation of Cumulative Grade Point Average (CGPA)

The aggregate or cumulative **SGPA (CGPA)** at the end of the second, fourth, and sixth semesters shall be calculated as the **weighted average** of the semester grade point averages. The **CGPA** is calculated taking into account all the courses undergone over all the semesters of a program, i.e., the CGPA is obtained by dividing the total of semester credit weightages by the maximum credits for the program.

$$\text{CGPA} = \sum(C_i \times G_i) / \sum C_i$$

Where:

- G_i is the grade point of the i th course/paper, and
- C_i is the total number of credits for that course/paper.

Alternatively, it can be calculated as:

$$\text{CGPA} = \sum(C_i \times S_i) / \sum C_i$$

Where:

- S_i is the SGPA of the i th semester, and
- C_i is the total number of credits in that semester.

6. Terms and Conditions:

- a. A candidate is allowed to carry all the previous **un-cleared papers** to the subsequent semester/semesters.
- b. Candidates who have failed or remained absent for one or more papers, hereafter referred to as **repeaters**, shall appear for examinations in such paper(s) during the succeeding examinations (Odd/Even). There shall be no repetition for the **internal assessment test**.
- c. The candidate shall take the examination as per the syllabus applicable and the scheme of examination in force during the subsequent appearance.

7. Medals and Prizes:

No candidate passing an external examination shall be eligible for any scholarship, fellowship, medal, prize, or any other award.

8. Removal of Difficulty at the Commencement of These Regulations:

If any difficulty arises while giving effect to the provisions of these Regulations, the **Vice Chancellor** may, in extraordinary circumstances, pass such orders as he may deem fit.
