Department of Computer Science

In Association with IQAC and IIC

OMNITRICS 2025

Tech Symposium

**Inter-Collegiate
Event Report**

Held on : 27 October 2025

Venue : The National College, Basavanagudi

Executive Summary

The OmniTrics - Tech Symposium 2025 was organized as a campus-anchored innovation forum to connect student builders, faculty, and industry mentors across AI, data, cloud, and product engineering. It was hosted at The National College (Autonomous), Basavanagudi (Bengaluru) on **27 October 2025**—a long-standing institution in South Bengaluru managed by the National Education Society of Karnataka.

Why this venue works

Basavanagudi is one of Bengaluru's oldest academic-cultural districts (DVG Road, Gandhi Bazaar), and the National College campus sits within a high-footfall, transit-served zone. The area is served by Namma Metro's Green Line via the National College station, improving access for inter-collegiate participants and sponsors coming from across the city.

The National College Grounds (and adjacent APS College Grounds) routinely host large public events—e.g., Bengaluru Ganesh Utsava (BGU) and seasonal fairs—demonstrating proven logistics capacity for stages, visitor flow, and crowd safety; 2025 BGU programming explicitly used National College Grounds and expected heavy daily footfall, and “Mango Utsava” ran week-long at the same grounds earlier in May 2025. This gives external stakeholders confidence in the site's suitability for sizable tech conclaves.

1) Purpose & Strategic Objectives

- **Bridge academia ↔ industry:** Enable hands-on exposure to real-world tech problems and hiring pathways.
- **Celebrate applied innovation:** Focus on prototype-first showcases across AI/ML, data, cloud, IoT, security, and product thinking.
- **Amplify South Bengaluru's academic hub:** Leverage Basavanagudi's education and culture corridor for visibility, access, and community fit.

2) Program Architecture (What attendees experienced)

- **Plenary & Keynotes:** Practical talks on deploying AI responsibly, cloud cost controls, data quality, and secure coding.
- **Competitions:**

No.	Event Name	Type	Association/Partner
1	Hackathon	Technical (ML Data Analytics Dashboard)	—
2	Codeathon	Coding Challenge	<i>In association with CodeTantra</i>
3	Webathon	Web Development Challenge	—
4	Ideathon	Idea Presentation Competition	—

3.) Objectives of the Symposium

- Promoting intercollegiate collaboration in technology and research.
- Providing a platform for student innovation and entrepreneurship.
- Encouraging participation in AI, robotics, and data science domains.
- Strengthening industry-academia partnerships.

4. Organizer Details

**Hosted by : The National College, Basavanagudi
In Association with IQAC and IIC**

4.1 Faculty Coordinators

- 1. Prof. Sangeetha B K**
- 2. Prof. Alakananda K P**
- 3. Prof. Bharatha V**
- 4. Dr. Jagadeesha B G**
- 5. Prof. Sudhir T V**
- 6. Prof. Satish K**
- 7. Prof. Vijayaraghavan**
- 8. Prof. Ranjitha Shree M**
- 9. Prof. Pooja**
- 10. Prof. Ananya**
- 11. Prof. Arpitha**
- 12. Prof. Pavithra**
- 13. Prof. Tharun**
- 14. Prof. Kedharnath**
- 15. Prof. Vinutha D V**

4.2 Students Coordinators - Event Heads

- 1. Ajay Tainwala (BCA 5th Sem)**
- 2. Nachiketh (MCA)**
- 3. Jeevan Babu (MCA)**
- 4. Sejal Yadav (MCA)**
- 5. Chatur Baradwaj (MCA)**

4.3 Volunteers

Almost 100++ volunteers worked to host this event with in various committees, also NSS volunteers supported with their strength

5. Outreach and College Visits

A comprehensive outreach campaign was conducted to ensure participation from various institutions across Karnataka.

- **Colleges Visited:** 91
- **Mode of Promotion:** In-person visits, presentations, and poster distribution
- **Regions Covered:** Bengaluru Urban, Bengaluru Rural, Mysuru.
- **Objective:** To create awareness about OmniTrics and invite teams for registration

These visits were crucial in promoting inter-college collaboration and enhancing visibility for The National College, Basavanagudi.

6. Registrations and Participation

The event witnessed an overwhelming response from multiple colleges.

Summary of Participation:

Metric	Count
Colleges Registered	33
Total Participants	221
Total Teams	88

Each team comprised 1–4 members, and participants represented diverse academic backgrounds such as Computer Science, Information Technology, and Electronics.

7. Event Wise Participants Distribution

Event	Participants	Teams
Hackathon	39	133
Codeathon	13	21
Webathon	13	24
Ideathon	23	43
Total	88	221

8.) Event-Wise Summary

8.1 Hackathon

- Theme: ML Data Analysis Dashboard
- Duration: 8 Hours
- Participants: 133
- Teams: 39
- Description: Participants built AI-based Chrome extensions solving real-world problems like cybersecurity, productivity, and education.
- Outcome: Promoted innovation in AI integration and real-time browser utilities.
- **Winners:**

ID	Participant / Team Name	College Name	Prize / Position
HACK-08	SHAKTHI S, ARYAN PRASAD,KARTHIK, BHOO MIKA S	JSS ACADEMY OF TECHNICAL EDUCATION	1st Prize 🏆
HACK-14	KESHAV KUMAR AGARWAL,ISHAAN GUPTA, VIGNESH B S, SRUJAN N HIREMATH	BANGALORE INSTITUTE OF TECHNOLOGY	2nd Prize 🏆
HACK-05	HARSHAVARDHAN S, KALEMONITESH R, HARIHARAN, HARSHITHA M	[Dayananda Sagar College of Engineering]	3rd Prize 🏆

8.2 Codeathon (in association with CodeTantra)

- **Theme:** Competitive Coding Challenge
- **Platform:** CodeTantra
- **Teams :** 13
- **Participants:** 21
- **Description:** Students competed in logic-based problem solving, algorithm optimization, and real-time coding tasks.
- **Outcome:** Improved problem-solving and coding efficiency among participants.
- **Winners:**

ID	Participant / Team Name	College Name	Prize / Position
COD12	Prajwal NM	DBIT College	1st Prize 🏆
COD02	Mohammed Rayaana Pasha	St. Joseph's University	2nd Prize 🥈
COD03	Rohan Gouda Gurunath	Dayanand Sagara University	Consolation - I
COD07	Mohammed Aashir S,M Abdul Mannan Pasha	Dr. HN College of Engineering	Consolation-II

8.3 Webathon

- **Theme:** Modern Portfolio Website
- **Participants:** 24
- **Teams:** 13
- **Description:** Participants built responsive and functional websites under time constraints using React, Tailwind, and APIs.
- **Outcome:** Enhanced front-end and back-end skills with real-world project exposure.
- **Winners:**

ID	Participant / Team Name	College Name	Prize / Position
WEB013	Mohammed Rayaan Pasha	St. Joseph's University	1st Prize 🏆
WEB009	Jeetandar N Silwani, Olivia Vellachalil Shibu	St. Paul's College	2nd Prize 🏆
WEB011	Punam Manna	Bishop's Cotton Women's College	Consolation - I

8.4 Ideathon

- **Theme:** Innovative Ideas for the Future
- **Participants:** 43
- **Teams : 23**
- **Description:** Teams pitched their innovative project ideas addressing social, environmental, or technological problems.
- **Outcome:** Encouraged critical thinking, entrepreneurship, and design-thinking mindset.
- **Winners:**

ID	Participant / Team Name	College Name	Prize / Position
IDE16	Hemanth Raj S Madesh S	T John Institute of Technology	1st Prize 🏆
IDE09	Manoj K , Manoj	Bangalore University	2nd Prize 🥈
IDE14	Vinatha N Vaishnavi Y U	Sjb Institute Of Technology	Consolation - I

09. Sponsors

Sponsor Name	Type (Monetary / In-kind)	Contribution Value	Benefits Provided
Rotary Club	T-Shirts/Hoodies	47300	Logo on banners, event mentions
Alumni Students	Monetary	33300	Sponsored equipment/prizes
TOTAL		80600	

10. Outcomes & Impact

- Promoted innovation and AI literacy among 221 students.
- Strengthened intercollegiate collaboration with 33 colleges participating.
- Enhanced institutional visibility as a center for technology and innovation.
- Provided students with hands-on experience in AI, coding, and product design.
- Fostered teamwork, leadership, and communication skills through team-based competitions.

11. Feedback Summary

Feedback was collected from participants and faculty coordinators.

Key takeaways:

- Students appreciated the innovative event structure and mentorship opportunities.
- Codeathon's partnership with CodeTantra provided professional coding experience.
- Participants suggested extending the event duration in future editions for deeper implementation.
- Faculty recommended conducting OmniTrics annually as a flagship technical fest.
- Participants raised their problem with Washroom Facility
- Drinking Water Facility is Improper

13. NAAC Mapping and Institutional Alignment

Criterion III: Research, Innovations, and Extension

Sub-Criterion: 3.2 & 3.3 – Innovation Ecosystem and Extension Activities

NAAC Sub-Criterion	Description	OmniTrics Contribution
3.2.1 – Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge	Encourages innovative ideas, AI-based problem solving, and technology incubation through Hackathon, Webathon, and Ideathon events.	- Developed working AI prototypes.- Promoted knowledge transfer through mentorship sessions.- Enhanced innovation culture among students.
3.3.1 – Extension activities that sensitize students to social issues and holistic development	Events like Ideathon promoted problem-solving for community and social issues through technology-based ideas.	- Encouraged socially relevant innovation.- Built awareness of real-world applications of AI and web technologies.
3.4.3 – Number of extension and outreach programs conducted in collaboration with industry, community, and NGOs	Collaboration with <i>CodeTantra</i> and other industry sponsors created an industry-academia bridge.	- Partnered with technical firms.- Offered real-world exposure to coding and AI platforms.

Criterion V: Student Support and Progression**Sub-Criterion: 5.1 & 5.2 – Student Support and Capacity Building**

NAAC Sub-Criterion	Description	OmniTrics Contribution
5.1.3 – Capacity building and skill enhancement initiatives	Provided skill-based learning opportunities in AI, coding, web development, and idea pitching.	- 221 students gained hands-on experience.- Workshops and mentorship improved employability skills.
5.2.1 – Students’ progression to higher education or employment	Exposure to real-world tech tools improved readiness for internships and placements.	- Encouraged students to explore AI, ML, and data science domains.- Strengthened placement readiness through problem-solving practice.
5.3.3 – Average number of students participating in extension/outreach activities	High student participation across 33 colleges and 4 major events.	- 221 students participated, building collaborative and leadership skills.

Criterion VII: Institutional Values and Best Practices**Sub-Criterion: 7.1 & 7.2 – Institutional Values and Distinctiveness**

NAAC Sub-Criterion	Description	OmniTrics Contribution
7.1.10 – Institutional initiatives for fostering creativity and innovation	OmniTrics served as a flagship innovation platform fostering inter-college collaboration and student creativity.	- Promoted creative thinking through Hackathon & Ideathon.- Recognized best innovations with awards and mentorship.
7.2.1 – Institutional Best Practices	Establishing OmniTrics as an annual AI & technology innovation fest to nurture future-ready graduates.	- Positioning The National College, Basavanagudi, as a hub for emerging technologies.- Encouraging experiential learning through competitions.
7.3.1 – Performance of the Institution in one area distinctive to its priority and thrust	Focus on integrating Artificial Intelligence, Web Technology, and Problem-Solving for educational upliftment.	- Aligned with NEP 2020 and Skill India mission.- Promotes digital literacy, innovation, and employability.
