

Report on One-Day workshop on GEN AI

Date:26-03-25

Venue:HN HALL

Organized by: National College Basavanagudi, Department of Computer Science

Target Audience: BCA/MCA students

Resource Person: Lakshmi

Introduction

A one-day session on **Jennie AI** was successfully conducted on 26-03-2025 with the objective of introducing students and faculty to the features, capabilities, and applications of Jennie AI – an emerging conversational AI tool. The session aimed to enhance participants' understanding of how AI-based tools can assist in education, content generation, and productivity.

Objectives of the Session

- To introduce the concept of conversational AI and its real-world applications.
- To demonstrate the working and capabilities of Jennie AI.
- To explore the potential of Jennie AI in educational and professional contexts.
- To encourage students to integrate AI tools into their learning practices.

Session Highlights

The session was divided into the following segments:

1. Overview of Conversational AI:

- Introduction to AI, Machine Learning, and Natural Language Processing (NLP).
- Evolution and significance of AI assistants like ChatGPT, Jennie AI, etc.

2. Introduction to Jennie AI:

- Overview of Jennie AI's features and interface.
- Demonstration of text generation, summarization, and interactive Q&A.
- Comparison with other AI tools (e.g., ChatGPT, Google Bard).

3. Live Demonstration:

- Real-time tasks such as content creation, coding help, and educational assistance.
- How Jennie AI can support teaching, learning, and research.

4. Hands-on Session:

- Participants engaged in using Jennie AI for writing, brainstorming, and technical problem-solving.
- Q&A with the resource person.

Outcomes of the Session

- Participants gained a practical understanding of Jennie AI and its potential use cases.
- Increased awareness of AI-driven tools in education and professional work.
- Sparked curiosity and encouraged further exploration of AI technologies among students.

Feedback

The session received highly positive feedback from participants. They appreciated the interactive approach and the relevance of the topic in today's digital era. Many students expressed interest in exploring more AI tools and incorporating them into their academic projects.

Conclusion

The one-day session on Jennie AI was informative, engaging, and well-received. It served as a stepping stone toward integrating AI in day-to-day academic and professional work. The organizers expressed gratitude to the speaker and all participants for making the session a success.
